Record's Big Prize Contest Closes Saturday at 2 P.M.

Battle of Ballots will Wage Throughout this Section of Kentucky. All indications point to a close finish and the contestants and their friends are working hard for more votes and subscriptions. Public interest in the Great Race is at high pitch. Claims and Counterclaims of Candidates indicate that the outcome is everywhere in doubt.

Help Your Favorite Win.

Subscribe to the Record—Renew your Subscription. Don't go back on your Favorite at this eleventh hour. A Big Prize may be Lost just for lack of the votes your Subscription would bring. Make Your Favorite a Winner at All Hazards.

The Central Record's Big Prize Contest will come to a close promptly at 2 P. M. next Saturday, Oct. 4th.

For many weeks past this big prize competition has been the talk all over this section and has stirred the people as nothing in recent years has done. But one day remains and this huge undertaking will be a thing of the past and many people will be the proud possessors of new found fame and fortune glory and prizes.

Thousands and thousands of votes have been pulled the last week by the candidates and their friends. Intense interest has been manifested the past week by the public in the standing of the contestants, which have been posted daily in front of the Central Record office.

AND NOW—JUST ONE DAY MORE.

Think of it—the time is growing mighty short to decide the winners of the Handsome Pony and Outfit and other prizes. But if you get among your friends and make a final round-up of all subscriptions it may give you the required number of votes to win. Keep right after the votes and subscriptions until the last. Don't be too confident and think you have enough votes to win, for if you do you probably will be disappointed. Remember it is much better to have a surplus of votes than not quite enough. Bring in your votes and subscriptions as early as possible tomorrow so that you will get them off your hands and will not lose any in the last few hours. Then any you get later can be turned in before 2 P. M., the closing hour of the contest.

IMPORTANT—READ CAREFULLY.

Gather up all your reserve votes and bring or send them to this office before 2 P. M. next Saturday. By reserve votes we mean the white ballots which have been given you or mailed to you when you or some of your friends sent in subscriptions.

Promptly at 2 o'clock tomorrow afternoon the doors of the Record office will be locked and no one will be allowed to enter thereafter to turn in subscriptions or votes. Subscriptions will be accepted from the contestants and their friends who are on the inside of the office at that hour, but if you come after that time your subscriptions will be of no use. If you send subscriptions no matter what time mailed—they must be in the Record contest department before 2 o'clock, Saturday afternoon Oct. 4th. If not received by that hour they will be worthless and not counted.

Don't leave any of your ballots at home. Gather them all up and bring them in before 2 o'clock tomorrow afternoon.

Votes are positively not transferable. They cannot be bought, but must be secured on subscriptions.

BE SURE that your subscriptions are in proper shape to hand in to the contest department. HAVE THE NAME, ADDRESS, Etc., WRITTEN PLAINLY ON THE CENTER PART OF THE CONTEST RECEIPT BEFORE HANDING IT IN. Don't come (continued on page 8)

MASTER DEAN ZANONE
DISTRICT NO. 1.

Football Game For Saturday.

Another attraction for next Saturday will be a Football game to be pulled off by the boys of our graded school. They have practiced hard for this game and a good crowd should go out to encourage them with their presence and a little financial aid which they need towards help paying for the grounds. A good game is assured.

Burton Ships Another Load Of Horses.

W. B. Burton shipped his second car load of stock for this season to the Wilson Live Stock Co., Wilson N. C. on Wednesday; the load consisted of 12 horses which cost \$165 each and 11 mules for which he paid \$200 per head. The demand for Garrard county stock seems to be unusually brisk in Wilson this season, and a load scarcely reaches that point before Mr. Burton is called upon to gather together and ship another. Mack Hughes the Danville Horseman again made the trip with the second load to see that they travelled in safety.

Messrs J. L. Wiggins and H. H. Walton of Wilson and F. L. Peacock of Fremont N. C. were Mr. Burton's guests on Tuesday, and were busily engaged in seeing the stock of the county during their stay. They were enroute to Lexington to attend the Trots. While they were here Mr. Burton sold to Mr. Peacock a couple of nice horses for \$165 each and a Roadster for \$225.

Of course you will be in town Saturday Oct. 4th, and if you will call at our office we will make you a special price on First Patent Flour in barrels and sacks. Don't neglect this opportunity as this special price will only be made on this one day to introduce this new flour.

Hudson & Hughes.

MISS JUDITH JAMES DANIEL
DISTRICT NO. 2.

Heed The Warning.

Judge James Benton had previously warned all persons in his judicial district interested in the last primary that any bribery of voters or any other acts violating the election laws would be vigorously investigated by his grand juries and if an indictment could be found the offender should be prosecuted without regard to person or position. It is evident that his warning was not heeded in Clark County. Mr. D. H. Hampton a prominent banker and influential citizen refused to tell on the boys before the grand jury. After being requested by the Court to answer the questions put to him and his defiant refusal to heed the Judge sent him to jail for contempt of Court and there he remained until he decided to talk. In addition he will

pay a fine of \$230.00. Every one who knows Judge Benton knew that Mr. Hampton would either remain in jail or answer all legal questions put to him by the foreman. Judge Benton had no other cause to pursue. The supremacy of the law would have been destroyed had this influential citizen been permitted to defy the Court, but the prominence of the witness could not save him in Judge Benton's Court. For in the mind of this Judge all persons are equal before the law and all laws should be enforced with the same unswerving firmness. Judge Benton is among the first officials of the State to take the bold position that the violator of the election laws should be placed upon the same basis as other criminals. Heretofore, in many places, in the State all forms of corruption and criminality in handling elections has been condoned and looked upon by many as a mere joke. But not so now or in the future in Judge Benton's district. This able and fearless Judge will be criticised by some for this performance of public duty required of him by the law and his oath of office. But he ought to and will have the support and commendation of all patriotic and right loving citizens in his district and throughout the State. There are a few public officials in the State so fearless and determined in the performance of duty as Judge Benton. We will have cleaner elections in the future and such men in office as Judge Benton will bring it about. Those persons in other districts who are planning to purposely violate the election laws may well take heed or their's will likely be a more unhappy and unpleasant plight than Mr. Hampton and his friends in Clark County.

Lightning usually strikes in the most unexpected places. The enforcement of the truant law has come to be regarded as a joke to a great extent here in Garrard county, but those who have been accustomed to so regard it will be treated to a surprise some day when a bolt of lightning in the form of an officer of the law descends upon them with a warrant for their delinquencies along this line. They are getting close to us, already several convictions have been had in the adjoining county of Lincoln, and we would not be surprised at any time to see the matter taken up here.

There is scant if any excuse for keeping children out of school in Garrard county, the county is in a thrifty and prosperous condition and we cannot conceive of the necessity arising which would deprive the child of that measure of education which rightfully belongs to them, and which so many of them in after years will have cause to regret not receiving, the very best educational facilities have been provided, at considerable expense, and these facilities are being constantly improved upon.

A parent has not the right, neither legal nor moral, of keeping the child out of school, it is their inherent right to receive an education, the very best possible, and this opportunity is within the grasp of everyone, without cost, and those who fail or prevent their children from availing themselves of this opportunity are violating the law of both man and God, and for such violation should be punished.

Much has been said and written about the disregard of the school laws in Garrard county, and yet they are continually broken, and we know of no better way to prevent these infractions than to allow them to feel the strong arm of the law, and as we said before the time is not far distant when they will answer to the law for their failure to put their children in school and keep them there.

"What is home without a paper?" A home without a newspaper is no home at all. It is a kind of dreary den where the inhabitants live in blissful ignorance of what the world is doing. It is inhabited by a class who do not know who is president or what he is president of, who never find out that a thing has happened until long after everyone else has forgotten it. The children grow up in rags and dirt, while the wife generally finds consolation

in darning socks and working and the man generally lives because he cant die and is too lazy to kill himself. He goes out on election days, and does not know who he is voting for, but just takes the ticket bearing the name his great-great-grandfather voted for.

By patronizing home merchants you are rewarded by always having good enterprising merchants at home. Patronize them and they will benefit you in more ways than one. You are rewarded by seeing your patronage and the patronage of your influence in building up and maintaining your own town; patronize home merchants, home industry and home enterprise of all kinds in preference to those of any place. Spend your money at home, with people who have interest in your town. By doing this the town is kept up, property is made more valuable, conveniences are enlarged and opportunities for financial improvements are opened.

A good county road is always to be desired and is a source of comfort and convenience to every traveler. Good roads attract population, as well as good schools and churches. Good roads improve the value of the property, so that it is said a farm lying five miles from market, connected by a bad road is of less value than an equally good farm lying ten miles away from market connected by a good road. A larger load can be drawn by one horse over a good road than by two over a bad one. Good roads encourage the greater exchange of products and commodities between one section and another.

While every week this Fall will be Fall Fashion Week in Lancaster Saturday, Oct. 4th, will be the banner day of all. Don't miss it.

Don't be misled by Fall Fashion week in other places, for counting your carfare and other expenses you are several dollars worse off by trading away from home.

Takes Well Earned Vacation.

Mr. Leonard N. Miller came to work Monday morning after having spent his annual vacation last week. There is not a man in town who comes nearer earning a rest each year than "Lennie".

Makes His Mouth Water.

Earnest Brown writes from California that the Lancaster Record makes him homesick but made his mouth water when he read of those cakes of Mrs. Ed Price and Mrs. Chas. Ballew. He will want to come straight home when he hears of that beautiful plate of cake Mrs. Lackey, another champion cake baker, sent the Record office a few days ago.

Somerset Goes Dry.

The local option election held in Somerset last Monday resulted in a victory for the "drys" by a majority of 57 votes. There are eleven saloons in Somerset, six new licenses having been taken out on last Saturday, probably in anticipation of a victory for the anti-saloon people, but these licenses will in all probability be contested in court under an existing law in a town of that class which requires that all saloon licenses expire on the first day of the year.

Two Estimable Garrard County Ladies

Are Granted Pensions.

The State Board of Pension Commissioners in session Monday granted pensions to two Garrard county women, Mrs. Ida Tinsley and Mrs. Martha Brown. Mrs. Tinsley is the widow of the late Homer J. Tinsley and Mrs. Martha Brown is the widow of the late George A. Brown, both Mr. Tinsley and Mr. Brown were gallant Confederate soldiers. Mrs. Brown is known and loved by nearly every person in Garrard county as Mrs. "Dolly" Brown. The amount of the pensions granted is \$10. per month and their first draw day will be in November, they drawing from the date of the filing of their application.

Uncle Sam's Men To Be Kept Busy.

The postoffice department has issued an order that all mail going out over Star and Rural routes shall be weighed during the months of October and November. This order means considerable extra work for postoffice employees.

Two Handsome Homes About Completed.

Two handsome new homes which will add much to the appearance of the city are nearing completion. Mr. H. C. Hamilton is just finishing his home on the lot on Richmond street on the lot purchased from the J. K. West estate and Mr. W. S. Carrier is putting the finishing touches on his new house on the lot on Danville street purchased of Mr. John Johnson.

Gay-Caldwell.

Prof. H. Caldwell, of Berea, Ky., and Miss Grace Gay of Hyattsville, were united in marriage by the Rev. Hannibal Morgan, at the home of the bride's Uncle C. G. Gay, on Back Creek, Sunday evening Sept. 21st. The bride wore a beautiful gown of pale blue Messaline with a drape of silk Oriental net over it. The groom was becomingly dressed in gray.

The bride is the beautiful and accomplished daughter of Mr. and Mrs. H. C. Gay. She has been a student of Berea College for the past three years. The groom was one of Berea's most popular young men, being a graduate from the Normal Academy and College course at Berea College.

The bride and groom left Tuesday for Knoxville, Tenn., where he will take a special course at the University at that place.

Trouble On The "Chute".

Chief Herron received a hurry call to the "chute" early Sunday evening to quell a disturbance, and when he reached the place of trouble he found a veritable hornets nest; he found Alex Watkins flourishing a big pistol and while he was engaged in wrestling it from him several shots were fired through a door and Mr. Herron is of the opinion that they were fired at him. He arrested Jimmie Adams, Alex Watkins and Charles Anderson and lodged them in jail and on Monday morning they were brought before Judge Harris charged with breach of the Peace; Watkins was fined \$10. and costs while the other two got off with one cent each and costs. Watkins is a "bad Negro" who came here from the mountains and has served a term in the pen. Such conduct should be nipped in the bud, and the only way to restore the peace and quietude of the "chute" is to fine such delinquents to the extent of the law and then see that the fines are either paid or worked out.

Naylor.

Mr. Daniel Naylor died at the home of his son Hayden Naylor, near Point Leavell on the evening of the 24th inst and his remains were interred in the family burying ground on the Crab Orchard pike on the following Thursday afternoon. Mr. Naylor was 75 years of age and had been for some time suffering from the infirmities of old age. He is survived by two brothers, Messrs John and George Naylor of the Lincoln county and two children, Mrs. Sam Ramsey of Lincoln county and Mr. Hayden Naylor of Point Leavell.

Mr. Naylor was born and spent his entire life in Garrard county, and no more highly respected citizen ever lived within its borders. No higher tribute could be paid to any man than to say that he was the noblest work of God, an honest man, and not a man who ever knew the deceased but would attribute this sterling quality to him. During a long and useful life in the county of his birth he has won an enviable reputation for upright dealings with his fellow man. A kindly, true hearted man and an upright and honest citizen, it may be truly said that in the death of Mr. Naylor the county loses one of her best citizens.

The Record joins in the extending of sympathy to the bereaved family in the death of this good man.

Affords Some Consolation.

It appears that at least one commodity is not to maintain such a high price, and too one that cuts a very material figure in "the high cost of living", wheat prices have been taking a downward course for the past week, due to heavy importations from Canada, and as the supply in that country seems well high inexhaustible, we seem destined to have at least reasonably cheap flour.

Hon. Henry Jackson For Congress.

The Danville Advocate reports that Mr. Henry Jackson has some thought of getting into the race for Congress. His friends over the district are pledging him support and asking him to seek the nomination, according to the report. Henry Jackson is a very popular official of Boyle county and is regarded as a model County Attorney. His sterling honesty merits the confidence that the people have in him wherever he is known. While a very modest man he has the happy faculty of making friends everywhere he goes and with all those he meets. He is one of the lawyers in Danville and would make an ideal Congressman. We know of no man in the district capable of putting up a better fight for the Congressional nomination than Henry Jackson.

Better Get A Gun License.

There has only been about 45 hunting license issued up to date, so we are informed by circuit clerk J. W. Hamilton. This is a very small proportion to the number of hunters that will be found in the field about the time the bird season opens, which is not very far distant. It is contrary to law to shoot even rabbits between the 15th, day of September and the 15th, day of November, when the open season for quail begins. Garrard county now has a Game Warden, and one part of his duty will be to see to it that all hunters have a license. Should you chance to go out hunting without first observing the formality of securing a license and fall into his hands it might cause you some trouble and expense. Anyone may hunt upon their own lands or upon the lands of his immediate neighbor, provided he gives his consent, without a license.

Wisconsin Puts Into Effect "Anti Gossip" Law, A Step Which Every State Should Follow.

The traffic in rum is a licensed evil which could well be dispensed with; the dispensing of gossip is an unlicensed, though very reprehensible evil, which could equally as well be dispensed with. Gossip, so freely indulged in by many people, often to such an extent as to work irreparable injury, is an evil which is seldom punished, in fact is hard to reach, save when it goes to such extremes as to become defamations of character or slander; when those retailing it are occasionally made to answer to the law.

The State of Wisconsin has recently put into effect a recently enacted law known as the "Anti Gossip Act," the penalty for infringement of their act is a heavy fine or imprisonment or both. What a God send a similar law to this would be in Kentucky, provided it were enforced. How many heartaches could be saved could the tongue of the itinerant purveyor of scandal be made to cease to wag; how many happy homes would remain in tact, how many separations of man and wife would be avoided, yes, even how many persons pursued by the poisoned tongue of scandal would be saved from a suicide's grave. Were there such a law upon our statute book, it would serve to silence the tongues of many a person who is accustomed to "talk about their neighbors"; to them it would serve as a Sword of Damocles, which they would ever be in fear of falling upon their heads.

We believe that the very existence of such a law, whether or not it be enforced, would have a salutary effect, for there would be the ever present fear of it, which would at least have a tendency to diminish gossip, while a few convictions would reduce it to the minimum.

Get A Copy.

The U. S. Geographical Survey has prepared a pamphlet which treats of the underground water supply in Central Kentucky. Tells at what depth water may be obtained in the various localities and its adaptability for domestic and manufacturing purposes. In view of the recent severe drought there will doubtless be many wells bored in the county and this pamphlet might prove of considerable value. This publication is known as "Water Supply Paper 233" and may be had upon application to the U. S. Geographical Survey, Washington D. C.

George D. Robinson Ships Stock.

Mr. George D. Robinson shipped a car load of horses and mules, 26 in number, on last Tuesday, to Cordele Ga. The stock cost him from \$150. to \$245 per head, and included in the lot was a pair of mules purchased of Jas. Pepples for \$500. Mr. Robinson left on Wednesday for Cordele, where he will remain until Christmas, when he will return to Lancaster for his family and with them will spend the remainder of the winter in Georgia. This is Mr. Robinson's second year in the south, where he deals extensively in horses and mules and has built up one of the most extensive trades in that line in the section in which he is located.

Catarrh Suffers

Get Immediate And Effective Relief By Using Hyomei.

Hyomei is nature's true remedy for catarrh. There is no stomach dosing—you breathe it. When using this treatment, you breathe healing balsams and effectively reach the most remote air cells of the throat, nose and lungs, the catarrhal germs are destroyed—quick and sure relief results.

Hyomei often restores health to chronic cases that had given up all hope of recovery. Its best action is at the start of the disease when the breath is becoming offensive, and constant sniffling, discharges from the nose, droppings in the throat, or that choked up feeling begin to make life a burden. At the first symptom of catarrhal trouble surely use Hyomei. Ask R. E. McRoberts & Son for the complete outfit, \$1. He will refund the money if it does not give satisfaction.

MASTIC PAINT

A Lesson in Real Economy

Take two houses—both alike—
Spend about \$50 to MASTIC-PAINT one—
Let the other go unpainted—

Offer them both for sale—
You'll wonder why the unpainted house finds no buyer at
even \$500 less than the MASTIC-PAINTED house will bring.

At the beginning both houses represented equal value.

The Lesson: A few gallons of **MASTIC PAINT**
properly applied at the right time greatly increases the value
of your property.

Your building needs painting Right Now, but don't use keg-
lead or hand-mixed paints. It may be cheaper at the start, but
is costly and unsatisfactory in the end.

To the Man Without One

YOU couldn't sell your hay in the big
cities. With their thousands of
horses, they form an excellent
market for hay, at tip-top prices,
but not for you. Why? Because
your hay is loose, fills five times the space it
should, is too bulky to ship, too bulky for
costly city storage—because in short, you have
no hay press. Bale your hay crop, and this
profitable market is wide open to you.

Besides this, the IHC hay press will put
your hay in convenient shape for hauling,
storing and feeding. It will save the waste
about barn and yards that loose hay means.
And you will no longer need to stack out-of-
doors. These things and more are

IHC Hay Press

Motor or Horse Power
will do for you, and your purchase is bound to
be an IHC machine if you study its special
features and advantages, its economical effi-
ciency and convenient arrangement.

Both motor and horse power presses are
made in three sizes, 14 x 18, 16 x 18, and 17 x 22-
inch bale chamber, baling at the very lowest
from six to sixteen tons per day. A compara-
tive test will prove that they are the most con-
venient presses ever built. In them will be
found the self-feeder; the bale tension and
spring roller tucker, features which make for
compact, uniform bales; the toggle joint
plunger, and the bale chamber of most con-
venient height for tying bales.

Remember also that the engine of the motor
press will run various small machines. Get
catalogues from our nearest office and get
acquainted with IHC hay presses.

Serious Error in Lancaster.

Lancaster Citizens Will Do Well To Pro-
fit By The Following.

Many fatal cases of kidney disease
have reached an incurable stage be-
cause the patient did not understand
the symptoms. Even today in Lancas-
ter there are many residents making
the same serious error. They attribute
their mysterious aches and pains to
overwork, or worry, perhaps, when all
the time their rheumatic pains, back-
ache bladder irregularities are most
probably due to weak and ailing
kidneys. If you are ill, if your kidneys
are out of order, profit by this Lancas-
ter resident's experience.

George Wright, Hotel Kengarian,
Lancaster, Ky., says: "I willingly con-
firm all that I said some years ago
praising Doan's Kidney Pills. They do
all that is claimed for them. I suffered
a great deal from my kidneys and back.
Pains through my loins extended to my
sides and over my kidneys. I used
Doan's Kidney Pills and my kidneys be-
came normal and the pains stopped."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,

Proposition For Fair Election Turned Down.

Lancaster, Ky., Sept 6, 1913

Pursuant to an appeal by the Pro-
gressive candidates for County offices in
Garrard County, Ky., published in The
Central Record for the last two weeks,
the following candidates of the three
political parties, whose names appear
below, to be voted for at the coming
November election; realizing how much
it means to our people to have an elec-
tion at which there are no corrupting
influences used, and also realizing the
growth of public sentiment along this
line, and ever mindful of the fact that
in a government of the people, the
unpurse majority must rule, we
the undersigned do most solemnly pledge
to the people of Garrard County and
among ourselves that we are unalterably
opposed to the use of any corrupting
influences whatever and do bind our-
selves to use neither money nor whisky
nor will we allow it to be used by another
in any way to secure our election.

We also further affirm that we have
not in any way used any corrupting
influences whereby we have bound any
person or persons to vote for us or any
other candidate at the coming November
election.

Referring to the above agreement
which was drawn and signed by the
Progressive candidates on Saturday the
6th. inst. to which they are pledged, we
express our great disappointment on
account of the fact that this appeal has
been utterly ignored by all of the can-
didates of the other parties.

By their failure to come forward and
agree to stand for clean elections,
where no corrupting influences shall be
used, they proclaim to the people of
Garrard County, that they are in favor
of present conditions now existing
within our borders, which all good
people regardless of past party affilia-
tions must deeply deplore.

We are standing, in this elections,
not alone for the offices, to which we
aspire, for if that had been our only
motive, we should never have been
before you at this time, but we
are standing for principles, which even
our opponents must acknowledge are
just and right.

We again express our deepest regret
at the stand taken by those gentlemen,
who are asking the good people of this
county to elect them to fill the various
offices for the next four years. We
had a right to have expected better
things from our opponents, when the
very foundations of this Government
today are being undermined by just
such conditions as exist in this County.

We, therefore appeal to the people of
Garrard County, to show on which side
they stand; whether they are in favor
of conditions as they now exist, or
whether they are in favor of conditions
for which the Progressive party is
contending.

Signed:

J. F. Holtzclaw candidate for Rep-
resentative,
J. B. Bourne candidate for County Judge
R. S. Brown candidate for Sheriff,
John M. Duncan candidate for County
Clerk.

G. B. Anderson candidate for Jailor,
John Green candidate for Assessor,
J. C. Crillis candidate for Magistrate
District No. 1.

R. M. Moss candidate for Magistrate,
District No. 2.
Harrison Ray candidate for Magistrate

J. W. Coldiron candidate for Magistrate

Real Joy of Shopping.

A woman takes a mournful pleas-
ure, after she has purchased a bar-
gain, in looking around and trying to
find a place where she might have
bought the same article a few cents
cheaper.

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs.
Burton, Under the
Circumstances.

Houston, Texas.—Is an interesting
letter from this city, Mrs. S. C. Burton
writes as follows: "I think it is my duty
to tell you what your medicine, Cardal,
the woman's tonic, has done for me.

I was down sick with womanly trouble,
and my mother advised several different
treatments, but they didn't seem to do
me any good. I lagged along for three
or four months, and for three weeks, I
was in bed, so sick I couldn't bear for
any one to walk across the floor.
My husband advised me to try Cardal,
the woman's tonic. I have taken two
bottles of Cardal, am feeling fine, gained
15 pounds and do all of my housework.
Friends hardly know me, I am so well."

If you suffer from any of the ailments
so common to women, don't allow the
trouble to become chronic. Begin taking
Cardal to-day. It is purely vegetable
the ingredients acting in a gentle, natu-
ral way on the weakened womanly constitu-
tion. You can see risk in trying Cardal.

The Womans Club

(Edited By The Womans Club)

After a long, hot summer it seemed early in September there would never be a return to club activity, for club women, along with all the rest of humanity, were reduced to a state of coma, but a few crisp days made things look up a bit, and not only has the prospect brightened but from the interest manifested at the last meeting the promise of a splendid year's work lies before us.

The last meeting was in the form of a reception, under the able management of Mrs. Will Cook and Misses Sue Shelby Mason and Anne Margaret Elkin.

"A reunion of old friends" was pleasant, as well as welcoming new ones. Delightful frappe was served throughout the afternoon. Mrs. Theo Currey, the new president, gave the address, speaking very interestingly of club and federation work in general and of the Lancaster Club work especially.

The chairman of the different departments then made short enthusiastic talks. After listening to all, one could not but be convinced, that there is no limit to the usefulness of each department, and in the coming year each chairman hopes to take advantage of the really great opportunity she has for usefulness in our community by developing her department to the fullest.

The meeting of Oct. 2nd., is the Parent-Teachers meeting which should bespeak for itself a full attendance as well as interest and co-operation.

The meeting of Oct. 9th, belongs to the Civic department. A talk will be given by Mrs. James Kinnaird on "Conservation Of Our Trees" and also a talk by Mrs. Robert Elkin upon Tree Planting. All should be interested in beautifying our streets and lawns with trees.

A full attendance is requested. All members who have not paid their dues for the coming year are also urged to be prompt in the matter that we may promptly meet our obligations.

A Good Play.

"A Romance of Billy Goat Hill" which was played last week at the Ben Ali theatre, is a dramatization, by George D. Parker, of the novel by the same name, which, as every one in Kentucky knows, is by the popular Kentucky writer, Alice Hegan Rice, author of numerous successful books, two of which were made into the world famous comedy, "Mrs. Wiggs of the Cabbage Patch".

May Buckley featured as "Miss Lady" and was supported by a capable company.

Billy Goat Hill, is a section of Louisville, which, like the Cabbage Patch, is widely known. Persons who have and who haven't read the book, should be interested in seeing a play made from a work by a Kentucky author whose books have been translated into many languages, and whose Mrs. Wiggs was popular as a play even "East of Suez".

PAINT LICK.

Mr J C Rucker of Lexington was with his parents Sunday.

Mrs Dee Woods of Stanford is the guest of her sister Mrs H. L. Wallace.

Miss Docie Metcalf left home Monday for a visit to her brother at New Salem, Ind.

Mrs. E. L. Woods and Miss Sallie Woods attended the opening at Lancaster Saturday.

Miss Ruby Smith, of Berea, has returned home after a visit to Miss Nettie Treadway.

Mrs Ralph B. Pitts and son Harold, of Anderson, Ind., are the guests of her sister Mrs Burdette Arnold.

While engaged in a game of base ball at Kirksville last Saturday, Dewey Metcalf had the misfortune to break his arm.

Mrs Nannie Brady and daughter of Frankfort have been visiting Mr and Mrs O L Hammack and Mr and Mrs W D Hammack.

Ben Ali, A Theatre Beautiful.

For a theatre the Ben Ali is ideally located, being directly in front of the Phoenix hotel.

In point of elaborate construction and beauty of detail it is second to none in the South.

The Tiffany Studios had in charge the entire decorative scheme, including the handsome drop curtain, the hangings, draperies and lights, they put into wonderful execution the marvelous peacock colors, the whole effect being softened and mellowed by the admirable arrangements of lights.

The lobby and foyer would do credit to a town twice the size of Lexington, the lobby being a promenade de luxe with its marble columns between which are ferns and palms. One of the features is the beautiful lounging room in which inviting couches, soft divans and roomy chairs have been arranged so that ladies and children may be comfortable if tired or sick.

The Ben Ali should be a source of pride not only to the people of Lexington but to all the blue grass towns, as it is the purpose of the management to put before them the highest class productions. Lancaster people have always patronized the other Lexington theatres and we know this one will come in for its share of our patronage.

Millions have read Louise Alcotts, Little Women, can on Oct. 10th, and 11th, see Mex, Beth, Jo and Amy in the same purity and gentleness that has hallowed them in so many memories.

Select Your Seed Corn Now.

The Kentucky Agricultural Experimental Station has issued a warning in regard to the selection of the seed corn for next year, which is both timely and wise. In view of the inferior quality of this years corn crop it is but reasonable to suppose that corn for seeding purposes next spring is going to be both high and scarce, and it behooves every farmer who has corn that is suitable for seeding purposes to save every suitable ear, both for his own use, and because of the fact that it will command a good price at seeding time. Garrard county has come to be recognized as a splendid place to seek seed corn, and farmers who have made a practice of selecting the best of their crop for the market for seeding purposes, have found heretofore that their supply was inadequate to the demand made upon them. If such has been the case in the past when the corn crop was good everywhere, then what may be expected the coming spring following a crop which was almost a failure. The same rule will apply as to tobacco seed: Garrard county has this year a tobacco crop surpassing in quality that of almost any other Burley raising county in the state, and the demand for seed next spring will no doubt be almost unprecedented. It is useless for us to go into the methods detailed as to the best manner of choosing seed corn and saving tobacco seed, for nearly every farmer is intimately acquainted with these methods, but a warning as to the high prices which may be expected for these commodities we deem not amiss at this time. Many a farmer by saving the cream of his corn crop and a liberal supply of tobacco seed from this years harvest will find a ready demand for them early next spring, and will find himself many dollars richer by his forethought.

Of Interest To Music Lovers.

It is heard with pleasure that the three great artists of the musical world are to be in Lexington this winter. The first of the three concerts will be November twenty fourth when a brilliant assemblage will greet Mr. Evans Williams, the "Great American Tenor". The second concert is January 19th, given by the beloved Mme. Schumann-Heink. The last of these great concerts will be by Mischa Elman, the noted violinist. This concert will be March second.

Evans Williams is a grand man with grand voice. Each year since his debut has greeted him with more and more enthusiasm. His popularity is so well assured that a large audience is always eager to welcome him. His voice is sympathetic and true with a wide variation of tone color. In him are blended to a marvelous extent the lyric and dramatic qualities. Mr. Williams' rendition of Bartlett's Dream and of old folk songs as well as "The Messiah" and arias from the operas have delighted devotees of music too long for his reputation in Lexington not to be a royal one.

Mrs. Schumann-Heink whose rare voice and endearing personality have never failed to win enthusiastic applause will delight her audience on her appearance in Lexington. One critic says: "Schumann-Heink stood before her audience last night erect, peerless, radiating power and confidence. Her matronly dignity has an amiable quality about it a friendliness that captivates, that seems to comprehend many things. Her voice is glorious, a contralto full of fire and depth. To hear Mme. Schumann-Heink is to become one of her admirers and to live in hope of renewing the pleasure."

Mischa Elman, the "Emperor of violins" comes to Lexington for the first time in March. All music lovers are eagerly awaiting this treat. To hear him play the Prize Song from the Meistersinger is to have a never to be forgotten pleasure and his rendering of the Humoresque is a piece of absolutely pure art.

A number of subscription tickets will be sold. These tickets are five dollars for the three concerts and will admit the holders to the best seats in the house. Any who desire tickets are asked to notify Miss Katherine Coehran of the Studio Club, 419 second street.

Many people from the cities near Lexington are planning to become subscribers for these concerts. The Opera House will without doubt be crowded to the doors on each of these evenings with a large brilliant audience of society and musical folk.

Keeping Tea Hot.

Any hot drink, such as tea, may be kept in scalding condition in a tightly sealed earthenware jar. The jar is placed in the center of a box stuffed with hay. The tea should be poured off the leaves after proper infusion, before being placed in the jar.

NEURITIS FOLLOWS CRIPPLED NERVES

Painful Effects Of Chronic Rheumatism Quickly Routed by Rheuma.

It your nerves are all crippled from attacks of Rheumatism, Neuritis can easily get a strong hold on the nerves. This most painful disease is one of the hardest known to expel, but RHEUMA can reach it if given a chance. This testimony is positive proof.

"Last March I was so crippled with Neuritis in left limb I could walk scarcely at all. Tried all remedies I heard of and had two physicians. Nothing did me any good until I used RHEUMA; also used ENGLISH MAR-HUE and NERVALINE—\$2.00 worth of your medicines surely cured me.—Mrs. C. E. Hayes, Russell, Ky. Sold by R. E. McRoberts & Son at 50 cts. a bottle.

Shipments of raw cotton from the United States to France alone last year were worth \$87,000,000.

Corn stlage and bright, clean hay make a good ration for dairy cows, and good yields of milk have been reported where no other food was given.

The housewife may at times find it worth remembering that a pinch of soda added to milk that is close to the souring point will keep it from curdling on being heated.

It would seem as if the rainy fall and winter had been about offset by the chilly days of April and May and that there should be some warm, growing weather coming to us.

In waging a denouement extermination campaign there is little use in digging up the plants at the blossoming period unless the blossoms are removed and destroyed, for if they are left many of them will mature seed and scatter it.

Encourage the boy by letting him have some of the money he gets for the sale of stuff from the garden which he has helped care for. The Scripture saying that "the laborer is worthy of his hire" applies to boys as well as men.

There is no kind of garden flower that is harder or easier to raise than the violet. It has few pests and thrives under the same general conditions as does the wild violet. A root or two will give a very large return in satisfaction for the trouble taken to care for them.

In the case of both horses and cattle (and folks might be added to the list) there is no scrub that is more of a scrub or more conspicuous than a thoroughbred scrub. This means that it takes something more than a pedigree on paper to make either a man or an animal worth his salt.

A very convincing reason for swatting the fly now is that under average conditions it will become the grandfather or grandmother of 1,000,000,000 by the time the middle of September rolls around. The writer hasn't verified these figures by actual count, but gives them on what seems to be good authority.

It may be a homely notion, but the writer somehow has the thought that with all of the many varied floral creations resulting from the ingenuity of plant breeders there has been nothing perfected that surpasses in exquisite coloring and beauty or in rich yet delicate fragrance a spray of wild crab apple blossoms.

It is well for both gardener and farmer to remember that cultivation is primarily for the purpose of stirring the soil to insure proper circulation of air and moisture and secondarily for the destruction of weeds. The one process serves both purposes it is true, but it is sheer folly to stop cultivation just because there are no weeds.

All animals appreciate and are the healthier for having a dry place in which to rest and sleep, and this is particularly true of the milk cow and of the brood sow and her litter of little pigs. Many of the ills from which the animals named suffer as well as a good deal of loss might be prevented were greater care exercised in this particular.

The writer planted some string beans this spring when he planted radish, lettuce and peas. The plants are now in their fourth leaf, but he has had to cover them half a dozen times to prevent their getting tipped with the frost, and he has concluded that planting beans in early April is a good deal like hatching chicks in February in that both are a bit out of season.

Everything that is transplanted in the garden these days should be safeguarded from attacks of cutworms by wrapping the stem a couple of inches above the ground with paper. If the worms are especially bad one should prepare poisoned bran or clover, according to directions recently given in these notes, and scatter it along the plant rows in the evening, so that the worms will get hold of it during the night.

At Rothamsted, England, is located an experiment station on which experiments in crop production have been conducted consecutively for a period of sixty years. Among other interesting facts brought out is that wheat that has been grown every year of this period on the same tract now yields but one-fourth as many bushels per acre as an adjoining tract on which there has been followed a four course crop rotation.

CHANGE IN OUR TAX LAWS NEEDED

Constitutional Amendment To Be Voted On In November

EQUITABLE SYSTEM DEMANDED

Last General Assembly Passed an Amendment to the State Constitution Relating to Revenue and Taxation.

Frankfort, Ky.—(Special)—The last General Assembly in Kentucky passed an amendment to the State Constitution relating to revenue and taxation with a view of abolishing the antiquated general property tax and substituting a more flexible system known to be more equitable and productive of greater revenue in other states.

The tax commission appointed under another act at the same session made a thorough investigation and reported unanimously in condemnation of the present law and strongly urged the adoption of the amendment by the voters at the November election.

It is a significant fact that since the adoption of the present Constitution in 1891, which provided that "taxes should be uniform on all property," a large volume of personal property has disappeared from the assessors rolls for the simple reason that such property was taxed out of existence or at least out of sight.

The owner of a bond, for instance, who received 4% interest and was called upon to pay in some instances 24% or more in taxes either sold his bond or failed to return it for taxation and cash, notes, bonds, stocks in foreign corporations and such like investments are apparently no longer owned by Kentuckians.

Burden of Taxes Transferred. This has had a tendency to transfer the burden of taxation to real estate and other property in sight and is not only unequal but unjust.

The real estate owner has sought to diminish its value and in order to protect himself transfers of property for "one dollar and other valuable considerations" has demoralized the true values and leaves the assessor no guide to follow.

Our citizens have unblushingly omitted such items in their returns for assessment and have felt justified in doing so.

The finances of the state have fallen into confusion and revenue agents and arbitrary boards of so-called "equalization" have failed to discover such property and secure their assessment.

Under the present law every man is practically his own assessor and the courts have sustained the practice, as the law permits no other course.

General Property Tax Desirable. Other states have long since recognized the inefficiency of the "General Property Tax," and in these states we see enterprise rewarded and wealth accumulating, while the tendency in Kentucky has been to hide our light and incidentally our valuables for fear of the tax collector's discovery.

Our progress has been retarded. Our population diminished and aside from the land owners and some merchants we do not seem to have much wealth left in the state.

Money like water flows along the lines of least resistance, and if we throw up a dam, however slight, it will be diverted.

Such a trifling obstacle as taxes, if unequally distributed, may prove to be a barrier of insurmountable proportions, however insignificant it may seem from a casual view.

No one desires willingly to become a law breaker, a deceiver or an evader, and yet he must be all of these if he follows the old maxim, "When in Rome you must do as the Romans do."

Is this true? Go look at the assessors books and see where men who are known to be wealthy get off by paying little or no taxes on personal property assessed by themselves.

Do self respecting men care to follow this example?

A shrewd business man may have large investments in bonds and fail to return them for taxation by many well known practices of evasion. He receives the full return on his investment.

A widow or orphan may be left bonds and the estate may have to be settled in court. The revenue agent finds it out and sues for omitted assessments of former years and the assessor puts them on the tax list. The widow and orphan are compelled to pay two or three per cent in taxes and live on the remainder.

Is such a system fair? Taxes, in a free self-governed country, should be the least matter to worry about and yet they can be made so unfair and irksome they drive people away and keep others from coming in. This is happening all the time in Kentucky.

We have a chance to remedy this evil and if disregarded now we will have to wait another five years before it presents itself again.

It is a clear duty to vote for this constitutional amendment at the November election and every citizen in the state should vote himself and urge his neighbor to do the same if Kentucky is ever to be dragged out of its lassitude and kept in the front rank of progress, prosperity and peace.

WHAT AILS STATE OF KENTUCKY

Traveler Ascertained Facts About One Community

CHANGE IN TAX LAWS NEEDED

Why Are 600,000 of Kentucky's People Living in Other States?—A True Story With a Moral—What Do You Think About These Conditions?

A traveler recently, while waiting to change cars at a little town in South-eastern Kentucky, had a conversation with an intelligent business man of the place and ascertained the following facts:

"What is your population?" he asked. "About two thousand."

"What is your principal industry?" "We have none, unless stores count."

"Have you no factories?" "None except a tombstone maker."

"How is your population employed?" "Well, we have fifty-two stores, nine hotels and restaurants, two newspapers, one laundry, one photograph gallery and two banks."

"You seem to have good railroad facilities."

"Yes, we have railroads running north, south, east and west; twenty-six passenger trains in and out every day and no end of freight trains."

"What does the surrounding country produce?"

"Coal, timber, clay, stone, corn, wheat, tobacco, fruit and vegetables."

"What becomes of all these?" "They are shipped to different parts of the country."

"Has your town increased in population?" "Not much in the past twenty-five years."

"How are your young people employed?" "They mostly drift away and get work in the cities."

"Has it never occurred to you to start a few factories and keep them at home?"

"Yes, it has been tried, and we at one time had a commercial club, whose aim it was to get some factories here, but they couldn't seem to do anything."

"What were the obstacles?" "Well, some people were induced to come here and found cheap land, cheap fuel, good shipping facilities, but no labor, and some of the laquettive ones asked about taxes, etc., and nothing came of it."

"What is the trouble with your taxes?" "Well, you see, we have the general property tax in Kentucky, and when they were shown the assessors' lists and found they had to pay taxes on about seventy-five different kinds of property, and all at the same rate, they ducked."

"Is this true about the taxes?" "Well, it is pretty near the facts. The city and county and state and schools all have to be paid, and if a man starts a factory he has to pay on his machinery, his raw material and finished goods; his cash and accounts, and, of course, on his land and buildings, and a good many other things, including his watch and stickpin, and, if he wants to educate his children, he must pay on the books and piano and his horse and buggy and almost everything but his shirt, and the trouble is, he never knows exactly what his taxes will be. If he omits any of the seventy-five things the legislature could think of and the miscellaneous things he must think of himself, there is the revenue agent who gets a commission on anything he can find, and then there is the county equalization board, which scrutinizes his returns and adds what it likes, and then the state board at Frankfort takes a whack at it and generally raises the whole list, and it simply keeps everybody going who has anything to be taxed."

"Why don't you change the tax laws?" "Well, they put the law relating to revenue and taxation in the state constitution, and it takes about five years to effect a change, and it is hard to get the voters to understand the question. The last legislature passed an amendment and it will be voted on at the November (1913) election, and if it is ratified the change will be made."

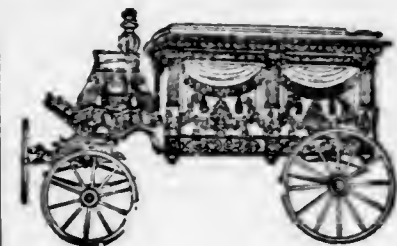

"I live in Pennsylvania, and every town in that state as large as yours has a factory of some kind, and many of them several. They employ the young men and women and keep them at home and the money they earn at it can stay here, you people should wake up, and fix your tax laws are oppressive, change them, and your state will blossom like the rose."

"Well, good-bye, stranger. I intend to vote for the amendment myself, and may be others will do the same. It can't be any worse than the present system, and I surely would like to see some smokestacks looming up in these parts. Farewell."

FROM REPORT OF KENTUCKY TAX REVISION COMMISSION, 1910.

"So long as the state adheres to its present system of taxation fixed by constitutional provisions, it will impose upon its citizens a very serious handicap in the competition with the citizens of other states more favored in their tax laws, and must inevitably lose both desirable population and much needed capital."

I have about 60 farm ranging from \$500.00 to \$40,000. See me before buying elsewhere. W. T. King the auctioneer and real estate man.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin disease and the blood." The skin must be cured through the skin. The germs must be washed out, and so on. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, Eucalypt and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it.

In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work.

One of the most delightful social affairs of several seasons was the porch party given by Mr. and Mrs. H. E. Thomas at their beautiful new home on West Main street. The event was in honor of their house guests, Miss Katie Simpson, of Lancaster and Miss Helen May of Somerset.

The brilliantly lighted library, where the hosts and honor guests received, and the spacious dining room where tables were arranged for games were attractively decorated with ferns and other plants. The large porch presented a cozy and festive appearance with its swings, seats Japanese lanterns at one end in a picturesque setting.

Miss Bessie Mustain gracefully presided over a punch bowl. Late in the evening a tempting course in pink and white was served; this was one of the most successful and enjoyable feasts.

At a late hour the guests departed, enthusiastic in praising their genial hosts, the beauty of the new home, the charm of the honorees and the highly enjoyable time.

Beasley Bros Buy Cattle.

Under the caption "Big Cattle Deal" the Lexington Leader published the following news item from Paris:

"One of the biggest deals in cattle made in this section for some time was that when John Murr sold and delivered to Beasley Bros., of Fayette county, ninetyseven head of 2-year old cattle. Forty nine head which averaged 1,200 pounds were sold for \$8 per hundred and the remaining forty-eight averaging 1,500 pounds brought \$7.75 per hundred."

The above article refers to "Dick and Pony Beasley, formerly of this county, and also indicates that they are among the most extensive dealers in Big Cattle in the state.

Banker D. B. Hampton Consents To Talk Before The Clark County Grand Jury And Is Released From Custody.

Banker D. B. Hampton of Winchester, who for the failure to answer questions before the Clark county Grand Jury in the election probe being conducted there, has been fined \$300, per day for the last several days by Judge Benton, and who has been in custody for contempt, on Tuesday submitted a proposition to the Grand Jury, the gist of which is as follows: That he would appear before that body and divulge the names of two men to whom he had given money to be used in the recent primary election, provided the men in question would be immediately indicted and tried, and he would then pay their fines, and all grand juries in future should be rigidly instructed as to the enforcement of the election laws. This proposition was accepted and two prominent citizens were indicted and fined, Judge Benton giving them the minimum of \$50 each, it being their first offense, and also withholding the disfranchisement part of the penalty.

Mr. Hampton assured the court, as he did the Grand Jury in his statement, that it was not his intention or desire to set at defiance the laws of the state of Kentucky, but that it was his understanding that he would not be required to give testimony that would tend to criminate himself, and as another reason that he did not wish to purchase immunity for himself at the expense of his friends, and that he would have continued to withhold his testimony had not the gentlemen in question voluntarily given their consent that he divulge their names.

Judge Benton in a short comment upon the matter expressed his pleasure at the manner in which it had terminated.

CONTEST

continued from page 1

in at the last moment without the name and address of a subscriber.

COME TO TOWN SATURDAY.

All the contestants and their friends are invited to attend the closing of the Record's Big Contest on next Saturday. Without a doubt, it will be the biggest day in the history of Lancaster. The merchants of this city will have a big Fall Fashion Display and this alone will attract hundreds of women. All arrangements have been made for a Grand Free Burgoon Dinner, a Band Concert and other attractions. It will be a day that no one in this part of Kentucky can afford to miss. Remember.

YOU'RE ALL INVITED.

Bring Pa and Ma, Sister and Brother, Aunts and Uncles and all your friends and relations. Your neighbors will all be here. You will meet friends you have not met for years. From reports that have been coming to the office of the Central Record the past week, it seems that almost everybody in this part of the state will be in Lancaster on Saturday, Oct. 4th. Don't make any other arrangements for that day but come early in the forenoon and make it an all day holiday.

BE ON THE JOB.

All contestants and their friends should come early in the morning and be prepared to gather in the subscriptions. It will be an unusually good opportunity for you to meet your friends and secure their subscriptions. It sometimes happens that the subscriptions secured the last day of the contest are the ones that make a contestant a winner. Bring in your friends, give them receipt books and get them working for you. Get out and hustle every minute of the time from now until the closing hour of the contest. Gather in all possible subscriptions. This will be a hard fought race and you will need every vote and subscription that you can possibly get to make you a winner.

IMPORTANT.

If there is any mistake in the count of any contestant's vote up to the present date or if there has been any mistake in issuing any of the vote ballots the error must be called to the attention of the Contest Manager before next Saturday noon. Otherwise, the standing as published today must be accepted as correct and will be used by the Judges in totalling the final standings at the close of the Contest.

If there is anything about the closing of the contest that you do not understand, ask the contest manager at once. Stratched, torn or mutilated ballots will be promptly discarded.

Immediately after the count for this issue was made, the ballot box was locked and sealed and the keys turned over to the judges. All votes that are polled hereafter will be counted by the judges after the contest is over.

JUDGES OF THE CONTEST.

The following well known gentlemen will act as Judges of The Central Record's Big Prize Contest which closes next Saturday, Oct. 4th at 2 P. M.

W. F. Champ, Cashier Citizens' National Bank.

MAKE YOUR "FAVORITE" A WINNER

Subscribe or renew your subscription at once. Don't go back on your "Favorite" at this eleventh hour. Make he or she a winner at all hazards. Don't let this happen but hurry over to the office of the Central Record before the closing hour of the contest and subscribe or renew your subscription for another year, or longer. It is a small matter to you but it means a lot to the candidate you want to win. All indications point to a close finish and your favorite will need every vote and subscription he or she can possibly get, to win.
